

A complex molecular structure, strength and plasticity combining singular simplicity of installation and use non-standard indications.

Propriétés :

Ribbons of 10 to 65 mm wide.

Color: White

Thickness: 2 to 6 mm

Temperature: -240 ° C to +270 ° C

Chemical Resistance: Resistant to all chemicals (pH 0-14) with the exception of molten alkali metals or dissolved and elemental fluorine at high temperature and pressure.

Pressure: Vacuum to 200 Accepts Drinking

Agréments :

- FDA ISEGA
- FMPA
- Ta Luft

Avantages :

Storage: Resistant to weathering, aging of the product in no time.

Médias d'applications :

We reserve the right to modify our products and ranges at any time to improve them.
